MIT INSTITUTE FOR DATA, SYSTEMS, AND SOCIETY
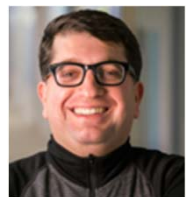

Social & Engineering Systems Doctoral Program

Hosted by

Prof. Ali Jadbabaie
SES Program Head

Admissions Webinars

Join us! Applications are due December 15, but there's still time to learn about SES at one of the two remaining admissions webinars.

▶ Tuesday, 27 November, 9AM EST
▶ Thursday, 6 December, 9AM EST

and an
SES doctoral student

Learn more & RSVP idss.mit.edu/ses_doc

SES students learn how to address significant societal challenges, by combining the analytical tools and methods of statistics and information sciences with engineering and social science tools and methods. They study problems that correspond to significant societal challenges, with an emphasis on areas like social networks, autonomous systems, energy systems, financial networks, and urban systems.
